ABSTRACT

The research aims to investigate the evidence for practices between lifelong education and government infrastructure in Ulsan Metropolitan City, Korea. In 2017 there were 44 lifelong education institutions. There were a variety of institutions that conducted lifelong education on 2017. Lifelong education institutions were mostly run by institute established by industry or institutions founded by media organizations. The number of lifelong education programs was the most at 7,701 programs in 2013. The number of instructor working on the program was the highest at 1,720 in 2014. Longer programs were more than one month longer than short-term programs within one month in six Korean metropolitan cities.

Keywords: Lifelong education, lifelong education programs, Ulsan Metropolitan City.
