ABSTRACT

The modernization process taking place today in Uzbekistan, a change in its target orientation, from the socialization of the individual to the formation of a person who is the bearer of the culture of his time and people, has led to the use of such a category as education for his result. If before students had to have a certain set of knowledge, skills, now a new criterion for measuring learning outcomes is competence.

Keywords: Competence, reading competency, elementary school, methodology, teaching math lesson, modern technologies, psychological understanding, didactic play.
