### ABSTRACT

The content of special and methodological competencies requires clarification in relation to a specific subject included in the curriculum of primary school. This is due to the fact that the elementary school teacher, by the nature of pedagogical activity, is a generalist who teaches twelve different educational disciplines. In addition, the primary school teacher is the class teacher and the regular organizer of the children's team, as well as the link between the school and the parents of the students.

**Keywords:** Methodological competence, primary school, development.
