

IMPROVING THE QUALITY OF EDUCATION AT DRAWING LESSONS WITH THE USAGE OF INFORMATION TECHNOLOGIES

Z. Mirzaliyev– head teacher of TSPU named after Nizami

M. Urinov -magistr

A. Mahmudov - magistr

ABSTRACT

Nowadays, as we know science and technology, types of producing and all technologic processes are almost fully computerized in all developed countries. Moreover, in all producing processes and educational spheres creating new technologies and technics are done with the help of graphic programs which are modern and functional.
