### ABSTRACT

Training of qualified pedagogical staff in Uzbekistan is based on national and world educational standards. In this regard, one of the important directions is to expand the scope of professional training of future teachers. The preparation of future primary school teachers for creative activities is also part of the expansion of such professional training and the following article deals with the conceptual basis of these issues.

**Keywords:** Uzbekistan, education, system, teacher, creativity, activity, concept, necessity, need, requirement, methodology, student, efficiency, individuality, creativity, and harmony.
