### ABSTRACT

Contemporary lecture should take the "ineffective" approach of the previous teaching to the "active" method, the discussion should be arranged in interactive forms, in the form of discussion, discussion, discussion. That's why many innovative methods are currently being used to interact with teaching methods. Some teachers are interactive teaching methods, using modern teaching materials (multimedia and animation slides, handouts, lecture texts, modeling tools, models, etc.) and using modern technical tools (computers, electronic boards, etc.) students will be able to present their texts to the student and understand that the student will be prepared for the lesson.

**Keywords:** Lecture, video and film, TV, multimedia, debate, discussions, conferences, educational and visual materials.
