ABSTRACT

The article deals with the differentiation of education as an important factor of pedagogical technology. As schools create our future, it is both a duty and an obligation for us to think and care about its future. One of the important aspects of its development is the differentiation of education. The first elements of differentiation, which are organized in the study of sciences in the current groups, are the process of transition to differentiated education instead of homogeneous groups. It will be possible to implement differentiated education in two directions.

Keywords: Differentiation, education, assessment, identifying, students' maturity, potential, achievements, shortcomings, self-assessment, duty and an obligation.
